## Supplier Performance Report

Reporting Period: August 2026  
Document No.: NSK/PUR/SPR/2026-08  
Prepared by: Purchase & Stores    Reviewed by: Commercial Manager

| Control            | Details             |
|--------------------|---------------------|
| Review Period      | August 2026         |
| Suppliers Reviewed | 14 active suppliers |
| PO Lines           | 63                  |
| OTIF               | 86.5%               |
| Critical Suppliers | 3                   |
| Overall Status     | Amber               |

### 1. Supplier Scorecard

| Supplier            | Material            | PO Lines | OTIF | Quality Pass | Avg Delay | Risk   |
|---------------------|---------------------|----------|------|--------------|-----------|--------|
| Punjab Knit Fabrics | Single Jersey       | 11       | 91%  | 97.8%        | 1.2 d     | Medium |
| Satnam Dyes         | Dyed Rib            | 7        | 71%  | 94.1%        | 3.8 d     | High   |
| Ludhiana Yarn House | Cotton Yarn         | 6        | 100% | 99.2%        | 0.0 d     | Low    |
| Bright Labels       | Woven Labels        | 5        | 96%  | 98.9%        | 0.6 d     | Low    |
| Sethi Elastics      | Waistband Elastic   | 6        | 83%  | 96.5%        | 2.1 d     | Medium |
| ColorPack Cartons   | Cartons             | 8        | 88%  | 99.0%        | 1.7 d     | Medium |
| PrintChem Solutions | Printing Inks       | 4        | 75%  | 92.8%        | 3.5 d     | High   |
| Threadline India    | Sewing Thread       | 9        | 94%  | 99.4%        | 0.9 d     | Low    |
| NeedleTech          | Industrial Needles  | 3        | 100% | 100%         | 0.0 d     | Low    |
| EmbroidPro          | Embroidery Job Work | 4        | 69%  | 93.5%        | 4.2 d     | High   |

### 2. Purchase Exceptions

| Supplier            | PO       | Material        | Required | Received | Issue       | Production Impact |
|---------------------|----------|-----------------|----------|----------|-------------|-------------------|
| Satnam Dyes         | PO-26187 | Black 2x2 Rib   | 2,400 kg | 1,680 kg | 720 kg late | Two sewing lines  |
| EmbroidPro          | JW-1142  | ARV Navy Panels | 1,800    | 1,000    | 800 pending | ARV delay         |
| PrintChem Solutions | PO-26211 | White PU Ink    | 180 kg   | 150 kg   | 30 kg short | Print plan moved  |
| ColorPack Cartons   | PO-26230 | 60x40x35 Carton | 1,200    | 700      | 500 late    | Packing hold      |

### 3. Quality Incidents

| Supplier            | Defect                          | Lot     | Checked | Rejected | Reject % | Disposition        |
|---------------------|---------------------------------|---------|---------|----------|----------|--------------------|
| Satnam Dyes         | Low GSM / shade drift           | SD-0808 | 420 kg  | 34 kg    | 8.1%     | Sort + credit note |
| Punjab Knit Fabrics | Oil stain                       | PKF-214 | 650 kg  | 18 kg    | 2.8%     | Replacement        |
| PrintChem           | Viscosity high                  | PC-092  | 60 kg   | 6 kg     | 10.0%    | Return             |
| EmbroidPro          | Thread break / incomplete motif | EP-228  | 600     | 41       | 6.8%     | Rework             |
| ColorPack           | Board crush                     | CP-441  | 500     | 12       | 2.4%     | Replacement        |

## 4. Root Cause / Corrective Action

| Supplier    | Root Cause                           | Supplier Action          | Our Action               | Due    |
|-------------|--------------------------------------|--------------------------|--------------------------|--------|
| Satnam Dyes | Dye-house scheduling / grey shortage | Dedicated dye lot        | Forecast 14 days earlier | 05-Sep |
| EmbroidPro  | Machine allocated elsewhere          | Reserve machine          | Daily panel call-off     | 01-Sep |
| PrintChem   | Batch viscosity control              | Pre-dispatch certificate | Tighten incoming QC      | 03-Sep |
| ColorPack   | Transit stacking damage              | Palletized dispatch      | Corner protection        | 04-Sep |

## 5. Supplier Capacity Observations

Satnam Dyes is operating near 92% dye-house loading and has limited flexibility for rush lots. EmbroidPro has nominal capacity but weak prioritization discipline. ColorPack has adequate board capacity; delay risk is mainly dispatch sequencing. Punjab Knit Fabrics remains dependable for core single jersey but should be watched for grey-melange consistency.

## 6. Commercial Exposure

| Supplier            | Open Value | Claim      | Exposure   | Decision              |
|---------------------|------------|------------|------------|-----------------------|
| Satnam Dyes         | ₹18.6 lakh | ₹0.42 lakh | High       | Dual-source black rib |
| EmbroidPro          | ₹7.9 lakh  | ₹0.18 lakh | High       | Cap open job-work     |
| PrintChem           | ₹4.1 lakh  | ₹0.09 lakh | Medium     | Conditional approval  |
| ColorPack           | ₹6.3 lakh  | ₹0.06 lakh | Medium     | Packaging audit       |
| Punjab Knit Fabrics | ₹31.8 lakh | Nil        | Low/Medium | Continue              |

## 7. Risk Ranking

- High: Satnam Dyes – repeated late receipts and shade/GSM rejection affecting live production.
- High: EmbroidPro – 69% OTIF and 4.2-day average delay; directly linked to ARV recovery.
- High: PrintChem Solutions – inconsistent ink viscosity and delayed white PU ink.
- Medium: ColorPack Cartons – acceptable quality but weak peak-week delivery reliability.
- Low: Threadline India, NeedleTech and Ludhiana Yarn House – stable service.

## 8. Management Recommendation

High-risk suppliers should receive formal corrective-action notices and weekly follow-up until OTIF exceeds 90% for two consecutive weeks. Purchase should qualify one alternate rib supplier before the next winter program.

## 9. Supplier Follow-up Tracker

| Action                         | Owner         | Due    | Status  | Escalation Trigger     |
|--------------------------------|---------------|--------|---------|------------------------|
| Alternate rib qualification    | Purchase      | 06-Sep | Open    | No approved source     |
| EmbroidPro capacity commitment | Purchase      | 01-Sep | Open    | <95% weekly commitment |
| PrintChem viscosity COA        | Supplier QA   | 03-Sep | Open    | Lot without COA        |
| Carton transit trial           | Packaging     | 04-Sep | Open    | Repeat crush >1%       |
| Monthly supplier review        | Purchase Head | 08-Sep | Planned | —                      |

## 10. Approval

Reviewed by Purchase Head and Commercial Manager. Supplier risk ratings shall be refreshed after September Week-1 delivery performance.
