| L5   | 1,080 | 1,120  | 85%        | 98.0%   | None            |
| L6   | 890   | 840    | 78%        | 95.9%   | Absenteeism     |

### 2. Material and Trim Status

| Item            | Required Today | Available | Gap    | Action                    | Owner    |
|-----------------|----------------|-----------|--------|---------------------------|----------|
| Black Rib       | 310 kg         | 80 kg     | 230 kg | Supplier delivery by noon | Purchase |
| ARV Main Label  | 2,400          | 1,600     | 800    | Prioritize receipt/count  | Stores   |
| 60x40x35 Carton | 520            | 40        | 480    | Local vehicle at 11 AM    | Packing  |
| Black Thread    | 180 cones      | 320       | 0      | Issue before shift        | Stores   |

### 3. Quality Discussion

| Issue           | Yesterday Qty | Line  | Decision                    | Owner    | Due       |
|-----------------|---------------|-------|-----------------------------|----------|-----------|
| Skipped stitch  | 34            | L1    | Needle change + first-piece | Sewing   | Today     |
| Open seam       | 27            | L4    | Operation audit             | QA + IE  | Today     |
| Shade variation | 18 pcs        | L4    | Segregate dye lot           | Cutting  | Immediate |
| Print placement | 12            | Print | Template recheck            | Printing | Today     |

### 4. Breakdown Review

| Machine  | Dept.      | Downtime | Cause          | Repair   | Preventive Action    |
|----------|------------|----------|----------------|----------|----------------------|
| M-FT-07  | Stitching  | 3.5 hr   | Looper wear    | Replaced | Weekly spare check   |
| M-OV-14  | Stitching  | 1.2 hr   | Thread tension | Adjusted | Operator checklist   |
| M-EMB-03 | Embroidery | 2.0 hr   | Needle bar     | Repaired | Lubrication schedule |

## 5. Buyer Order Risk Review

| PO        | Balance | Ex-Factory | Today Requirement | Risk   | Decision                |
|-----------|---------|------------|-------------------|--------|-------------------------|
| ARV-54821 | 870     | 04-Sep     | 250 pcs           | High   | Priority L1 + outsource |
| LPP-90318 | 680     | 06-Sep     | 220 pcs           | High   | L4 Sunday shift         |
| MPL-77109 | 820     | 08-Sep     | 180 pcs           | Medium | Move to L5              |
| DEC-44102 | 170     | 03-Sep     | 100 pcs           | Low    | Maintain plan           |

## 6. Decisions Recorded

- Black rib receipt to be physically verified by Stores before 12:30 PM.
- Line 4 to run only the approved LPP operation sequence until quality stabilizes.
- Packing to prioritize ARV and M&S cartons once receipt is counted.
- Maintenance to keep one flatlock machine available as backup.
- Merchandising to confirm LPP split shipment before end of day.

## 7. Management Direction

Do not add loading to Line 4 until open-seam defects are below 2% for one full shift. Order completion with first-pass quality takes precedence over gross hourly output.

## 8. Meeting Controls

- Every action has one accountable owner.
- Any action affecting a buyer commitment receives a due time, not only a due date.
- Unresolved material shortages remain on the next day's agenda.
- Closure requires evidence such as receipt, inspection result or production balance.

## 9. Action Register

| Action                 | Owner         | Deadline | Status | Escalation      |
|------------------------|---------------|----------|--------|-----------------|
| Verify black rib       | Stores        | 12:30 PM | Open   | Factory Manager |
| Confirm LPP split      | Merchandising | 5:00 PM  | Open   | GM Operations   |
| Line 4 operation audit | IE + QA       | 2:00 PM  | Open   | Production Head |
| Carton receipt/count   | Packing       | 12:00 PM | Open   | Packing Head    |
| Flatlock backup check  | Maintenance   | 1:00 PM  | Open   | Factory Manager |

## 10. Next Meeting

Next daily production meeting: 01-Sep-2026 at 09:15 AM. Agenda: ARV balance, LPP split shipment, black rib receipt, Line 4 quality and September loading.
